About the Fund

The RELI Capital Mortgage Fund (“the Fund”) aims to deliver regular income at a pre-determined rate.

The Fund targets attractive returns¹ and low volatility through robust risk management measures combined with prudent lending standards.

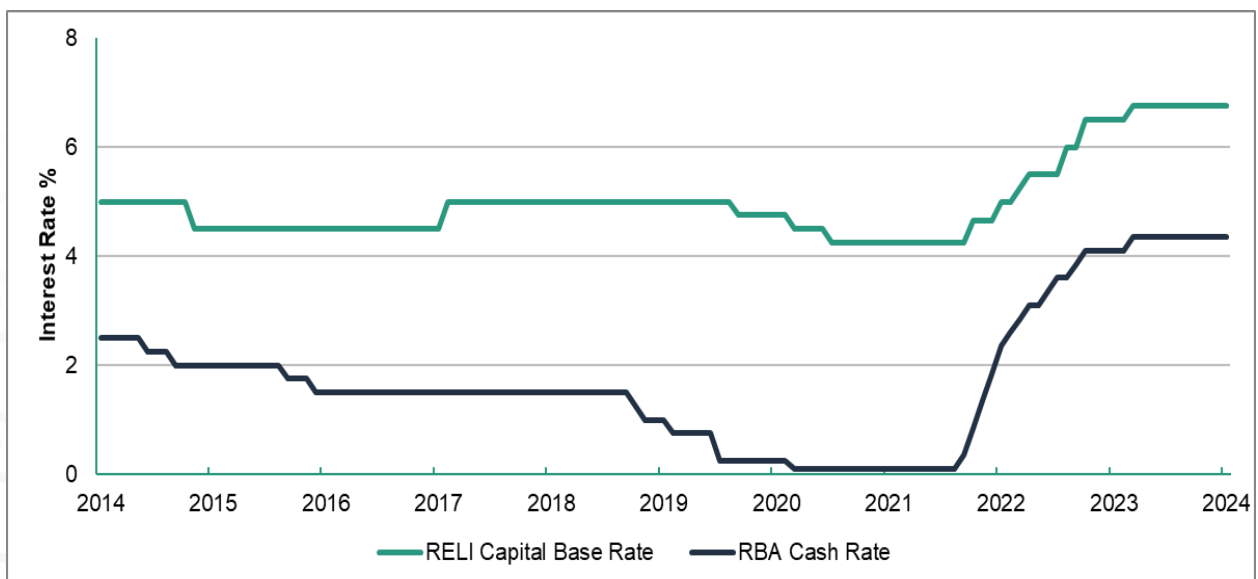

The Fund provides for investments in loans secured by registered first mortgages over real estate property including residential, commercial, rural and vacant land. Loans are approved in accordance with the Fund’s lending policy principles and loan to value ratios that do not exceed a maximum 66.66% of the security property value.

The Fund and its predecessors have been managing mortgage investments on behalf of investors for over 45 years.

This fund may be suitable for investors who are looking:

- for income generating investments in the form of interest payments;
- for a pre-determined rate and fixed investment term;
- to diversify their Australian sourced income and diversify within the Fund through separate loans;
- for a less volatile asset class;
- for a passive income to replace or supplement their salary and or pensions;
- for transparency and choice with their investments;
- for direct access to the investment managers.
